Profile

I am a university student studying **software engineering**, with a passion for **frontend development**. I enjoy designing beautiful and easy-to-use websites that give people a great experience. My interest in coding and solving problems has helped me develop strong skills to build **efficient** and **responsive web pages**.

I am always curious about new technologies and enjoy learning about the latest trends in frontend development. I love taking ideas and turning them into real, interactive designs that work well and look amazing.

Skills

Languages: HTML, CSS, JavaScript

Frameworks: React.js

Design: Figma, responsive design principles

Tools: Git **Soft Skills:** Problem-solving, collaboration

- English
- Amharic

Projects

Lumen chatbot

Lumen Chatbot is an AI-powered assistant designed to provide quick answers, save chat history, and make conversations easy and engaging. It supports secure login using credentials or Google Sign-In and offers a user-friendly interface.

Outcomes:

Easy Communication: Provides instant and helpful responses.

Convenience: Saves and manages past conversations.

User-Friendly: Simple design for all users.

Secure: Keeps user data private and safe.

Lumen Chatbot simplifies tasks, enhances productivity, and delivers a seamless chat experience.
